Chapter 3. Human Health-Related Research and Technology

3.1 Requirements Definition

3.1.1 The ESMD shall develop and recommend human health-related research and technology development requirements.

3.1.2 The HMTA shall review and approve, with modifications as needed, all proposed health-related research and technology development requirements.

3.1.3 The HMTA shall review and assess the progress of human health-related research and technology development programs against established health and medical standards.

3.2 Operational Implementation

The HMTA shall approve, approve with revision, defer, or reject, as necessary, all health-related research deliverables and contractor health and medical technology and systems deliverables prior to implementation by the appropriate operational community.
